### **Best Preparation Welcomes the Manufactured Life Century**

The technologies and products such as cloning, recombinant DNA, artificial intelligence and other manufactured life forms, are titled nonhuman and be repulsed by some scholars who ascribe the ecocide to these technologies. Actually the manufactured life technology is innocent, nonhuman products are not the contra of humanness, but its result and reflect. Consequently, we need to popularize of the other kind of culture reinforcing the Christianity, one side preventing the collapse of the religion, and the other side to construct a kind of perfect character which is the only model to be copied by the technology. The Chinese culture will function during the manufacture life period, the control of human will not be the exploitation of nature anymore, but the preservation and sustainable development, which is also the final desirability of Chinese culture, named "Tian-Ren-He-Yi".
